

CREATE A FOREST/STREET SWEEPER

<https://www.wizardcodingbook.com>

Hazel has asked Milton to clean the forest floor. Design a 'Forest Sweeper' for Milton to use. Milton doesn't have a Pro-Bot license so it will have to be driverless!

1. Download the mini paper craft characters from the Wizard Coding Website.
2. Design a 'Street Sweeper' for the forest in the space below.
3. Collect materials you could use.
4. Make your 'Street Sweeper'. Don't forget a place for Milton to sit and watch.
5. Programme your Pro-bot so that it cleans the forest or street all by itself.

My Design
